

MEMO

Date: February 9, 2011

To: President
Oklahoma Plumbing Inspectors Association
% City of Edmond
4251 Jaxton Road
Guthrie, OK 73044.0

Reference: SGS Third-Party Certification

This memo is on behalf of SGS North America, Inc. with regards to Third-Party Product Certification of Plumbing Products certified under the SGS Plumbing Products Certification Program. SGS North America is a legally recognized Third-Party Certification Agency under the auspices of ISO Guide 65 "General Requirements for Bodies Operating Product Certification Systems". SGS North America, Inc, located in Fairfield, New Jersey, certifications are accredited by International Accreditation Service (IAS), reference IAS Product Certification Agency Accreditation Certificate PCA-105.

In addition to our accreditation to ISO Guide 65, SGS North America, Inc. also operates laboratories throughout North America which are accredited to ISO 17025 "General Requirements for the Competence of Testing and Calibration Laboratories". Our laboratory in Tulsa, Oklahoma is fully accredited to test plumbing products to the required standards, reference IAS Laboratory Accreditation Certificate TL-282.

Please distribute this information to your members, inspectors, and any other persons you may deem to be of benefit to this information.

Thank you in advance for your consideration of this matter.

Best Regards,
